Figure 4 shows a diagram of a user interface layout. The layout is divided into two main sections. The top section is labeled 'Console' and contains a large rectangular area with a diagonal cross (X) inside. Below this area, there is a 'Prompt' label and a 'Logo' label. To the right of the 'Prompt' label, there is a 'Title' label and a 'Details' label. The 'Title' label is followed by a 'Feedback' label. The 'Details' label is followed by a series of navigation icons: a checkmark, an 'X', a double arrow, a left arrow, a right arrow, and a double arrow. The bottom section of the diagram shows a grid of ten rectangular areas, each containing a diagonal cross (X). Below this grid, there is a 'Prompt' label and a 'Title' label. To the right of the 'Prompt' label, there is a 'Feedback' label. The 'Title' label is followed by a series of navigation icons: a double arrow, a left arrow, a right arrow, and a double arrow.

Controls: one or more controls may be visible or highlighted at any point of time.

Initial state: when no pictures are visible or if the user is responding to a dialog box only the Pixxa button is displayed.

Picture state: when pictures are present, display Feeling, Prev, Next, and Pixxa buttons.

Hover: when the mouse goes within the LikeIt button, a "tool tip" is displayed above it.

Hover: when the mouse goes within the Prev button, a "tool tip" is displayed above it.

Hover: when the mouse goes within the Next button, a "tool tip" is displayed above it.

Hover: when the mouse goes within the Pixxa button, a "tool tip" is displayed above it.

Mousedown on LikeIt icon in neutral will take it into "like" mode.

Mouseup marks this picture as "like it". Since the mouse is still within the button, the "tool tip" is displayed.

Mousedown marks the picture as "don't like it" in hilite mode. The button bitmap is inverted.

Mouseup marks the picture as "don't like it". Since the mouse is still within the button, the "tool tip" is displayed.

Sideline: like/dislike transitions. Not all the transitions are shown above.

Prev/next buttons highlight during mouseDowns. The sequence of clicks shown here brings you to the same place no matter where you start from, even if the pictures are randomized.

More info: clicking on pixxa icon starts your browser with a page on Pixxa server related to this picture.

More info: pixxa will start the browser.

Hovering on the previous icon displays the "tool tip"

Mousedown on Prev button takes you to the previous slide (which is not in the dislike list)

MouseStillDown on Prev button continues to take you to previous slides (which is not in the dislike list)

Control/command key combination with Next and Prev keys shows both the "like" pictures and the "dislike" pictures.

Mousedown moves you to the next frame.

MouseStillDown on Prev button continues to take you to previous slides (which is not in the dislike list)

Control/command key combination with Next shows all pictures in this collection regardless of like/dislike.
